End-of-Life Notification

Feb 4, 2008

Dear Valued Customer:

As part of our on-going product lifecycle management process, we have identified a set of products that will be transitioned to an "End-of-Life" status. This decision was based on our review of historical unit shipment volume and product revenue performance.

Products targeted for end-of-life will be available for a last time buy purchase prior to being made obsolete. The products that have been identified for inclusion into our Last Time Buy Program are listed in Appendix A: Product Obsolescence List that is attached to this notification.

Under the terms of the last time buy program, orders will be accepted for 60 days commencing with the date of this notice after which no additional orders will be accepted. Scheduled deliveries will be permitted within 60 days of the last time buy date. Thereafter, these products will be considered obsolete and no additional deliveries will be made.

Last Time Buy date is April 4, 2008
Last Time Ship date is June 4, 2008

Minimum buy quantities vary by product. Please contact California Micro Devices for the exact quantity available. Acceptance of last time buy orders is subject to product availability and at the discretion of California Micro Devices. Every effort will be made to fulfill these orders. However, in the event that we should have low yielding material, we reserve the right to short ship the order.

Products purchased during this end-of-life transition period will be fully covered by California Micro Devices' standard product warranty. Purchase orders for these products will be considered non-cancelable, non-returnable (NCNR). Potential product returns will be accepted under our normal RMA procedures. Failure analysis will be limited to verification of failure and remedies will be limited to credit of the purchase price of the product.

If you have any questions concerning this End-of-Life notification, please contact your California Micro Devices representative.

Regards,

Kyle Baker
Vice President, Marketing
California Micro Devices
